**GENERAL CERTIFICATE OF COMPLIANCE**

**To Whom It May Concern**

**We hereby certify that our childrens' products listed below are in compliance with lead content limits for childrens' products under Consumer Protection Safety Improvement Act (CPSIA).**

**Organic Cotton Baby Onesies**

**Organic Cotton Baby Beanies**

**Organic Cotton T-shirts: Baby, Toddler, Boys/Youth Sizes**

**This is based on independent agency certification and testing programs as below:**

Organic Certification under GOTS standards: Certificate # ONE-1853 issued by OneCert.

To comply with organic certification procedures, our mill is required to periodically conduct random product sample tests for heavy metal contamination. As per GOTS organic standards, lead content is required to not exceed 4 ppm (parts per million) which is well below CPSIA lead content limit of 100 ppm.

The YKK metal snaps used on our baby onesies have also been tested for lead and are certified according to Oeko-Tex® Standard 100 under Licence number 12.HTH.03628. The Consumer Products Safety Commission (CPSC) has announced that the Oeko-Tex® Standard 100 comply with the lead content limits stated in the Consumer Products Safety Improvement Act (CPSIA).
